

Seminar Series in Biostatistics
Unit of Biostatistics, Epidemiology and Public Health
Department of Statistics and Quantitative Methods

Speaker	Title	Date
Edoardo Botteri Cancer Registry of Norway <i>Oslo, Norway</i>	Principles, effectiveness and pitfalls in cancer screening	9 Feb 2017
Alessio Crippa Karolinska Institutet <i>Stockholm, Sweden</i>	An introduction of Survival Analysis with R	23 Mar 2017
Maria Altman Karolinska Institutet <i>Stockholm, Sweden</i>	Swedish Health Quality registers used in perinatal research	30 March 2017
Federica Gallo Centro di Riferimento per l'Epidemiologia e Prevenzione del Tumore in Piemonte <i>Turin, Italy</i>	Estimating and Modeling Relative Survival	30 March 2017
Giovanni Veronesi Università dell'Insubria <i>Varese, Italy</i>	Metodi statistici per la stima del rischio assoluto di evento: il caso delle malattie cardiovascolari	6 April 2017

Important:

Please visit <http://biostatunimib.altervista.org/SBEPH2017/> for scheduled rooms and times of seminar (Last minute changes due to unforeseen events are possible: please check them regularly)

Speaker	Title	Date
Jonas Ludvigsson Karolinska Institutet <i>Stockholm, Sweden</i>	Health Registers in Sweden	10 April 2017
Andrea Bellavia T.H. CHAN Harvard School of Public Health <i>Boston, USA</i>	Statistical approaches for highly-correlated exposures: the case of environmental chemical mixtures	17 May 2017
Laura Pazzagli Karolinska Institutet <i>Stockholm, Sweden</i>	Marginal Structural Models – a powerful tool for time varying data structure	25 May 2017
Marco Vassallo Centro di ricerca per gli alimenti e la nutrizione <i>Rome, Italy</i>	Structural Equation Modeling: A Latent Variable Perspective and Research	31 May 2017
Francesca Orsini Murdoch Childrens Research Institute <i>Melbourne, Australia</i>	From Milan to Melbourne: experience from a young biostatistician from Bicocca	22 June 2017

Important:

Please visit <http://biostatunimib.altervista.org/SBEPH2017/> for scheduled rooms and times of seminar (Last minute changes due to unforeseen events are possible: please check them regularly)

Speaker	Title	Date
Alessandro Cassini European Center for Disease Control (ECDC) <i>Stockholm, Sweden</i>	From evidence to action: using burden of infectious disease estimates in the EU	29 June 2017
Stefano Calza University of Brescia <i>Brescia, Italy</i>	Statistical and computational modelling for Omics data	13 July 2017
Rosaria Galanti Karolinska Institutet <i>Stockholm, Sweden</i>	Linking theory and practice: study design in the evaluation of complex Public Health interventions	28 Sept 2017
Roberto Miniero Istituto Superiore di Sanita' <i>Rome, Italy</i>	La complicata relazione tra tossicologia e epidemiologia	26 Oct 2017

Important:

Please visit <http://biostatunimib.altervista.org/SBEPH2017/> for scheduled rooms and times of seminar (Last minute changes due to unforeseen events are possible: please check them regularly)
