

Seminar Series in Biostatistics
Unit of Biostatistics, Epidemiology and Public Health
Department of Statistics and Quantitative Methods
Academic Year 2017-2018

Speaker	Title	Date	Time and Place
Gabriele Frigerio Porta	Statistical models for triggering hazards	8 Feb	14:30 - 15:30 Room DeLillo
Bruno Cesana	Agreement on qualitative variables between rating methods	15 Mar	14:30 - 15:30 Room DeLillo
Alessio Crippa	An introduction of survival analysis with R	22 Mar	13:30 - 16:00 Lab 711
Carlo La Vecchia	Mediterranean diet, cancer and cardiovascular risk in a network of Italian studies	5 Apr	13:30 - 14:30 Room DeLillo
Elena Colicino	Machine learning to study the effect of metal exposure on health outcome	19 Apr	12:30 - 13:30 Room DeLillo
Daniele Giardello	Prediction of contralateral breast cancer	17 May	14:30 - 15:30 Room DeLillo

Speaker	Title	Date	Time and Place
Federica Gallo	Estimating and Modeling Relative Survival	22 May	14:30 - 15:30 Room DeLillo
Anders Ahlbom	The ageing population: an epidemiologic perspective	24 May	14:30 - 15:30 Room DeLillo
Enzo D’Arcangelo	Importanza e sviluppo dell’Analisi di Sopravvivenza e dei Modelli Lineari Generalizzati in Medicina e nelle Scienze Sociali	31 May	14:30 - 15:30 Room DeLillo
Andrea Bellavia	Statistical approaches for highly-correlated exposures: the case of environmental chemical mixtures	1 June	14:30 - 15:30 Room DeLillo
Katarina Balter	Sustainable lifestyle and health	22 Nov	14:30 - 15:30 Room 2062
F. Gallo, M.T. Puglisi	Misurare la salute riferita dalla popolazione: il progetto P.A.S.S.I.	6 Dec	14:30 - 15:30 Room 2062
